SUMMARY

MEAN stack developer with hands-on experience building and maintaining enterprise web applications using Angular, Node.js, Express.js, and MongoDB. Comfortable across the full stack, including React.js and Next.js, with a track record of delivering a freelance project end to end. Focused on responsive UIs, REST API integration, and writing clean, maintainable code.

EDUCATION

Silver Oak University
Bachelor of Computer Applications (BCA)

Ahmedabad, Gujarat
Jul 2022 – Apr 2025

TECHNICAL SKILLS

Frontend: Angular, React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js

Database: MongoDB

Tools & Platforms: Git, GitHub, GitLab, Postman

Concepts: REST APIs, JWT Authentication, Agile Development, Debugging, Problem Solving

AI Skills: AI-Assisted Development, Prompt Engineering

WORK EXPERIENCE

MEAN Stack Developer

BrainerHub Solutions, Ahmedabad, India

Jan 2025 - Present

- Developed and maintained enterprise web applications using Angular, TypeScript, Node.js, Express.js, and MongoDB.
- Built responsive user interfaces and integrated REST APIs to support core business workflows and application functionality.
- Developed analytics dashboards, reporting modules, and data-visualization components for business-focused web applications.
- Optimized UI and API performance through Angular change-detection tuning and response caching, improving load times and responsiveness.
- Diagnosed and resolved production issues across debugging, testing, and deployment to maintain application stability.
- Collaborated with cross-functional teams in an Agile environment, using Git and GitLab for version control.

PROJECTS

- **E-Commerce Platform** (MERN, Stripe, Gemini API) : Developed a full-featured e-commerce application with shopping cart, Stripe payment integration, invoice generation, order tracking, and a Google Gemini AI chatbot for customer support and product queries. [GitHub](#)
- **FigoCare Healthcare Website** (Freelance, Next.js) : Designed and developed a healthcare business website with responsive UI, email integration, SEO optimization, and deployment. Managed the complete project lifecycle independently from development to delivery. [Try it!](#)
- **Food Court Web Application** (React.js, Tailwind CSS) : Built a responsive food-ordering website with reusable components, menu-browsing functionality, and modern UI design principles. [GitHub](#)

PUBLICATIONS

- **A Beginner's Guide to Integrate APIs in Angular:** Authored a technical article explaining API integration in Angular, covering HTTP requests, services, observables, error handling, and best practices for frontend developers. [Link](#)
